

Introducing Our New Forests without Borders Intern

Krysta Soulière has recently taken on the Forests without Borders (FwB) Coordinator position with the Institute near Mattawa. She will be working to develop acceptable protocols, promotional material and creative strategies to enhance FwB initiatives and projects, with the leadership provided by FwB Trustees, the Institute's National Board of Directors, and interested members from across the country.

Krysta has just finished her Bachelor of Science degree from the University of Waterloo with a focus in Biology and Environment and Resource Studies. In 2009, she was part of the Summer Experience Program for the Ontario Ministry of Natural Resources at the Sudbury District Office. She also worked as a field technician for the Cooperative Freshwater Ecology Unit. While exploring the natural environment, Krysta will rarely be seen without her camera in hand—taking pictures of anything that might inspire.
